WHY OUR CLIENTS CHOOSE US

Expertise

Our team provides in-depth, specialized knowledge of the Mexican administrative litigation process and judicial precedents, delivering comprehensive solutions for administrative matters. Collaborating with our administrative controversy and consulting teams enables us to incorporate diverse expertise throughout the entire project lifecycle to achieve optimal results.

Trusted partner

We make it our business to know our client's business, providing tailor-made advice and support. We work alongside our clients to drive the most tax-efficient outcomes.

Independence

A&M is not an auditing firm, giving us the freedom to move nimbly without administrative and governance processes blocking the way.

Network

We have extensive experience with Mexican tax authorities and offer multijurisdictional solutions through our international tax practice.

THE A&M TAX APPROACH

Assessment and strategy development

Evaluating the client's tax situation, including audits, disputes or potential liabilities, allows for the development of a strategy tailored to the specific legal and financial aspects of each case.

Document preparation and filing

The Mexican authorities usually requests large amounts of information, so it is important to gather the necessary information and support documentation and to file the appropriate documents.

Communication

Communication and updates are a regular part of the process, keeping clients abreast of progress, possible and potential strategy changes.

Legal defense presentation

We accompany our clients as part of the litigation process with the courts, presenting arguments and evidence.

THE A&M DIFFERENCE

MITIGATE EXPOSURE

Exposure resulting from audits and enforcement actions by administrative authorities, including the imposition of administrative penalties, settlements, undue charges, and other unfavorable decisions made by these authorities, can be mitigated by challenging their resolutions.

SAVE MONEY

Challenging new laws through an Amparo procedure, or disputing audit results that are perceived as unfair or incorrect, can potentially lower financial costs associated with increased taxes.
